

XM radio is the best thing that I could ever have. I love having the instant traffic when I am on the road. All other radio stations have commercials and news between thier traffic reports, XM is constant. In Los Angeles, knowing your traffic conditions is as good as gold! I love the XM radio, it is versitile and simple. Please let me keep my XM and all its channels. I have never enjoyed the radio, but XM gives me everything I want and more.
